

Concrete and Masonry products since 1888

Thank you for selecting VanDerVaart as the Mesa retaining wall manufacturer on this project. We appreciate the order and desire complete satisfaction with our products. In an effort to provide efficient customer service, VanDerVaart requires this form be completed prior to manufacturing and delivering the product.

Project Name: _____

Project Location: _____

Contractor: _____

The following is the final selection of the Mesa retaining wall units to be used on this project. Select the type, color, and desired face of retaining wall block needed. Proper installation procedures are very important. Follow Mesa written instructions or request specific jobsite information prior to installation.

Please checkmark all of the products that you select for delivery at the above address:

1) Retaining wall style:

_____ Mesa Standard Units (8" tall units) _____ Mesa Adobe Unit (6" tall units)

2) Retaining wall color and face:

_____ Buff, Straight Face _____ Gray, Straight Face _____ Brown, Straight Face
_____ Buff, Radius Face _____ Gray, Radius Face _____ Brown, Radius Face
_____ Specialty (specify color & face)

3) Retaining wall cap color and face:

_____ Buff, Straight Face _____ Gray, Straight Face _____ Brown, Straight Face
_____ Buff, Radius Face _____ Gray, Radius Face _____ Brown, Radius Face
_____ Specialty (specify color & face)

4) Retaining wall corner units: _____ Required (Mesa Standard only) _____ No corners required

Corners units are suited for both left and right sides and are manufactured in a straight face. Corner units can be chiseled on site by contractor to create a radius face if desired.

Shade variation is inherent in concrete products. The samples that you have selected from are meant to display the general range of shade and texture of the block. We cannot guarantee an exact matching color.

The \$14.00 pallet charge is fully refundable upon return of pallets in good condition. If multiple deliveries are required for the project, please have empty pallets accessible for pick up when Van Der Vaart is delivering subsequent loads.

The contractor is responsible for final inspection and approval of material when it arrives on the jobsite. Please contact your sales representative prior to installation of material if you have any concerns. No complaints about size, chippage, or color will be considered after the retaining wall block are installed.
